To Whom It May Concern

Re: Letter of Recommendation for Adamas Drilling And Exploration

Adamas Drilling And Exploration provided underground diamond drilling service to Namib Lead And Zinc Mining (Pty) Ltd during June – October 2014.

I found Adamas Drilling And Exploration to be knowledgeable and experienced in diamond drilling. Their management and field personnel were working close with our geology and operations staff on a daily basis.

During our contract Adamas Drilling And Exploration successfully drilled 1200 meters. They complied with all safety standards during the period they were at Namib Lead and Zinc Mine. They also had zero injuries throughout their contract. The drilling program was completed according to schedule and average core recovery was also very good.

I would recommend the services of Adamas Drilling And Exploration Company for any future drilling contracts.

Please do not hesitate to contact me if there are any questions.

Yours sincerely
